

**AMENDMENTS TO THE SPECIFICATION**

**Please delete paragraph [60] in it's entirety and replace with the following new paragraph:**

A data structure of an address system using the IPv6 address according to the present invention can also be embodied on computer readable recording media or transmission media. The computer readable recording media include all types of recording devices in which data that can be read by a computer system are stored, such as ROMs, RAMs, CD-ROMs, magnetic tapes, floppy discs, and optical data storage units. Transmission media can include carrier waves (for example, transmission via the Internet).
